

WIRELESS FULL HD CAMERA

The camera is integrated inside Q-Flow luminaire - it doesn't complicate the usability of the light. It is suitable to be used with all Q-Flow luminaires.

Rotation, zoom and other functions provide good and easy visibility to the operating area. Wireless transmission enables live video feed to external monitors e.g. in training or consulting.

- Camera unit “hidden” inside the luminaire – no additional parts underneath
- Can be attached to all Q-Flow luminaires – even retrospectively
- Excellent video stream quality
- Camera controls integrated into the same luminaire user interface – no need for additional control units
- Merimote™ and OpenOR™ compatible
