

TRIO

For surgical lights and monitors

Modern operating rooms today are equipped with more and more equipment designed to provide surgical staff both the clinical images as well as critical video sources during the procedure. For the staff, functionality and ergonomics of suspension solutions that carry these vital monitors, is of very high importance. Suspension solutions of Q-Flow product family has gone through a complete update, now being able to offer many new solutions that will enhance the ergonomics of any operating room.

Read how Merivaara's R&D was challenged to think outside the box and what then happened.

Monitorer

Merivaara erbjuder en rad medicinskt godkända monitorer, lämpliga för att visualisera innehållet under medicinska ingrepp.

Displayskydd

Ger extra stötskydd för dyra medicinska monitorer. Den optiskt, fullständigt transparenta ytan minskar bländning så att bilden syns mycket bra och förhindrar repor. Kan avlägsnas, rengöras och sättas fast igen. Enkelt att rengöra och underhålla. Monteras på vår fabrik innan leverans..
